**Functionality in Emergency Situations
for Voice and Broadband Services**

Back-Up Power

The Company's Central Office has a fixed standby generator with a run time of 48 hours. We also have a battery string that will carry the load for 8-12 hours depending on usage. We have three Serving Area Offices that have fixed standby generators with run times of 24 hours. These locations also have a battery string with reserve capacity of 8-12 hours depending on usage. The remaining Serving Areas are fed by two BLC cabinets that have a generator plug built into them. They also have a battery string with a reserve capacity of eight hours. We have multiple portable generators and stockpiled fuel for them ready to go at a moment's notice.

Our access network is FTTP. All ONT's have a UPS that has a minimum of eight hours of backup power.

Our network can operate without an external power source for both switching and broadband services.

Rerouting of Traffic around Damaged Facilities

The Company has a redundant fiber ring built into its access network. This ring also handles the interexchange traffic. The Company does not have diversity in our toll route, but we do have materials on hand and splicing equipment on standby at all times in case of a fiber cut. Broadband traffic, as well as voice traffic, uses the same local loop to the subscriber's premise.

Traffic Spikes

The Company's voice switch has a capacity of 70,000 lines with 250,000 busy hour call attempts. Currently, we have 2,700 access lines. Our average busy hour call attempts is around 2,000. We have a significant amount of unused switching capacity to handle sporadic traffic spikes. The broadband pipe to the world has enough capacity to carry more than a normal day's data if required.

Description of Tribal Engagement

The Company has again requested a meeting with the Iowa Tribe of Kansas and Nebraska Tribal Authority to conduct a needs assessment for the Tribal community anchor institutions. In addition to requesting a meeting via a letter (copy attached), the Company has verbally tried to contact the Tribal Authority but the Tribal Authority has not returned any communication. The Company will proactively continue to make an effort to contact the Tribal Authority to set up a meeting.

Once the Company and the Tribal Authority begin to develop a plan the company will review the feasibility to reach the anchor institution with a long term facility solution. Should marketing of the service be required, the Company will provide information in a culturally sensitive manner. The Company will comply with the right-of-way process, request the respective land use permits, take action to comply with the facility siting rules, comply with the environmental review process, comply with cultural preservation and comply with other Tribal business and licensing requirements.
